

LOOK GREAT EUROPEAN DAY SPA

MS. JAYE MINTON-GOLDBERG

RELAX. REFLECT. CALM YOUR MIND.
SOOTHE YOUR SPIRIT

Enjoy a rejuvenating facial. Or perhaps a full body sea weed mask. Indulge yourself in a paraffin manicure and hand treatment and pedicure; delight your senses by wrapping your spirit around an aromatherapy massage. Unparalleled luxury. Look Great...Feel Great.

In our busy and chaotic world, there is a place of private luxury and quiet relaxation to calm mind, body and spirit.

Ms. Jaye Minton Goldberg has created this luxury private retreat for men and women in the heart of Florida's Gold Coast. It is here in Boca Raton that Ms. Minton-Goldberg had the foresight and vision over twenty-seven years ago to conceive of her exclusive and well-known Day Spa located just steps from the ocean on East Palmetto Park Road in the heart of Boca Raton.

Ms. Minton-Goldberg has graced, with her knowledge and expertise, the Florida Beauty scene for this great length of time at her pristine location. She is quite well-known for her studio and television work in the local and regional film and broadcast community, and in that role she has been the celebrity on-air and locational stylist for three nationally-syndicated television shows. She styled Ms. Loni Anderson for her show "Modern Cuisine" which aired on the Food Network, Dan Marino of NFL football fame for his work on "In Motion With Dan Marino" seen on ESPN, and was the stylist for Ms. Suzanne Sena of E! Television Fame for her episodes shot in a South Florida soundstage. Ms. Goldberg continues to enjoy her work as one of the top hair and make-up stylists for the Palm Beach Film Commission.

Jaye Minton-Goldberg and staff are also stars in the bridal world for all aspects of bridal beauty; from skin care to nail and hair care and onto the bridal day for bride, groom and bridal party. Not only is she quite knowledgeable and gifted in her wedding expertise; she enjoys trusted and valuable associations with major bridal boutiques from the local and regional high-end Bridal shops to the bridal department at Bloomingdale's. These relationships are long-standing and coveted among wedding stylists. When asked how she developed such strong ties and loyal followers. She replies with a bit of levity..."I'm good. I care about my brides...they are a reflection of my work and dedication...I've been consistently good at this for twenty-seven years. I should be the #1 choice by now!"

Jaye has delighted all who have been fortunate enough to experience her expertise, as well as that of her first-class operators in the twenty-seven years she has been pampering, instructing and beautifying men and women. She has instructed her talented and professional staff so they in turn follow her belief that “anyone can be taught their own creative make-up techniques”. Along those lines, she and her staff teach each and every client at Look Great that wellness and beauty are important and each individual should be receptive to the idea that they are worth that time and effort. As Jaye often says, “Like fashion, make-up looks change and evolve, and to achieve a more successful and contemporary look one must avoid looking dated”. Building upon the foundations of that belief, her clinical estheticians treat Skin Care as an art, and her own talents as a world-class Make-Up Artist build upon that palette.

Ms. Goldberg is complimented by her team of renowned Hair Colorists and Master Stylists, Clinical Estheticians offering world-class Therapeutic and Cosmetic Facial Treatments, Body Treatments, International and Domestic Waxing, as well as Boca Raton’s finest Masseuses. Look Great Day Spa boasts the city’s most experienced Nail Technicians offering the finest in Nail & Hand Treatments and Aromatherapy Hand & Foot Care.

Because Ms. Minton-Goldberg has worked so extensively with the finest South Florida area Plastic Surgeons she has gained and imparted to her trusted employees knowledge about nutrition, wellness, and pre and post-operative skin care. Look Great Day Spa has a full-time board-certified Medical Doctor who administers all medical cosmetic treatments including Botox, Restylane and Collagen.

Jaye Minton-Goldberg has earned the accolades she enjoys through hard work, dedication, and a passion for people.
